Important Information

- The amount displayed for an Authorized Transaction may be different from what you actually paid, as some merchants require a temporary hold be placed on additional funds. This is a common practice at merchants such as gas stations, restaurants and hotels. The correct amount will display when the transaction is shown as a Posted Transaction.
- Some payments, such as those made from non-RBC accounts, are not available in real time and will not appear in your Authorized Transactions. These payments will not be reflected in your Available Credit until they have been settled and included in Posted Transactions.
- A delay may occur between the time a transaction is settled and removed from Authorized Transactions, and when it appears in Posted Transactions.
- Some transactions may appear as both an Authorized and a Posted Transaction until settled.
