## Your 2015 RRSP/PRPP Deduction Limit Statement

**RRSP/PRPP deduction limit for 2015 – Amount (A)**  
is the maximum amount you can deduct on your 2015  
return for:

- your unused RRSP/PRPP contributions  
(**amount B**) that are available for 2015; and
- RRSP/PRPP contributions you make from  
March 3, 2015, to February 29, 2016.

Note that this maximum amount that you can deduct  
is over and above any deduction you can claim for  
certain eligible income that you transfer to an  
RRSP/PRPP.

**Unused RRSP/PRPP contributions – Amount (B)** is  
your unused RRSP/PRPP contributions at the end of  
2014 that are available for 2015. You either could not  
deduct this amount or you chose not to deduct it on a  
previous-year return. Report **amount (B)** on line 1  
of your 2015 Schedule 7.

**Tax on RRSP/PRPP excess contributions** – You may  
have to pay a tax of 1% per month on RRSP/PRPP  
excess contributions if your unused RRSP/PRPP  
contributions (**amount B**) plus any additional  
contributions you may make from March 3, 2015, to  
December 31, 2015, exceed your RRSP/PRPP deduction  
limit for 2015 (**amount A**). If you have RRSP/PRPP  
excess contributions, see "Tax on RRSP/PRPP excess  
contributions" in Chapter 2 of Guide T4040, *RRSPs and  
Other Registered Plans for Retirement*.

**Additional information** – For more information about  
RRSP/PRPPs, including how we determine your  
RRSP/PRPP deduction limit, see Guide T4040,  
*RRSPs and Other Registered Plans for Retirement*.

December 31, 2014

Jeff,

It was a pleasure to meet you and Carling last week in Kelowna and I enjoyed our discussions. Thank you for taking the time to meet with me and for the subsequent resume.

As I indicated, our near-term strategy at Superior Glass is to enhance and strengthen our estimating team, separate our in-town versus out-of-town work flows, and to focus on becoming a High Reliability Organization in over-delivering on customer expectations but with efficiencies that drive gross margin success. We will initiate this most immediately by bringing a much higher level of professionalism to our project management and team communications structures. Our long-term strategy is to build a high-performance operating team led by a knowledgeable and capable leadership team.

We believe that you and your talents fit well with these strategies and we would like you to join our team as soon as possible. On the following page I have included a brief description of what we see your initial role being.

Please accept the following as our offer of employment to you. We look forward to discussing this with you once you have had time to review the details below.

**Start Date:** Immediate

**Base Salary:** \$92,000 CAD annually

**Bonus:** Based on a percentage of team and individual gross margin performance paid quarterly. Estimated average annual outcome is \$12,000

**Benefits:** Company standard benefits including dental, vision, etc. A plan overview will be sent separately.

**One Time Moving Costs:** We understand that moving from Kelowna will carry some expenses. Superior Glass will cover reasonable expenses including professional movers, travel and out of pocket expenses related to your search for a new home, and interim costs during your transition from Kelowna to the Greater Vancouver Area. Once we have agreed to move forward we will ask you to obtain quotes and estimates of these costs so that we can mutually agree on a budget.

---

Patrick De Meester, President

### **Role Description - Estimator/Project Management Process Lead:**

This initial role is seen as a hybrid role between a) strong contribution to our Estimating Team and b) leadership of our effort to improve our job delivery performance through formalizing our Project Management Process.

As a member of our Estimating team, you will contribute your knowledge and experience to accomplishing and surpassing our collective Revenue, Gross Margin, and Job Mix goals annually. For fiscal 2014-15 these are:

**Revenue** = \$15 million (approximately split \$8.5 million GVA, \$4 million out of town USA, \$2.5 million out of town Canada)

**Gross Margin** = 30% or higher of Revenue

**Job Mix** = commercial retail, commercial office, and high-end residential glazing and related services which are considered complex, fine-finish, and for our competitors, complicated jobs that we can excel at while reducing our competition in bidding and providing our Delivery Teams with excellent opportunities to over-deliver versus customer expectations but within or below quoted budget.

With a team of 5 estimators (including yourself) our individual goals for each estimator is a minimum of approximately \$3 million bid and won in this fiscal year.

In the Estimator portion of your role you will report to Dave Dhaliwal and work as a part of his team.

As a leader in our Project Management Process, we will rely on and leverage your experience and knowledge in professional and practical project management structures to create a communication conduit between the Estimators and the Project Delivery Team (including Project Coordinators and the Installers). Superior will invest in establishing the required internal processes, appropriate tools, and in your efforts to bring project management acumen to our company to augment the great work our teams already do. We see this part of your role as being critical to our high-performance operation as a High Reliability Organization with the outcome being satisfied clients, under-budget projects that create greater Gross Margin, and an improved work experience for our entire staff.

In the Project Management portion of your role you will also report to Dave Dhaliwal but will serve internal customers including the Estimator Team, the Project Delivery Team, and the President. We see your role developing to become a core element of the Senior Management Team very quickly.
